

**Canterra Mineral Corp****Symbol:** TSX.V: CTM | OTCQB: CTMCF**Market Cap:** 15M**Sector:** Mining**Purpose:** Raise Awareness / Open Market Buying**Deck:**

Company Overview:

Canterra Minerals is exploring its Wilding and Noel Paul Gold Projects, directly northeast of Marathon Gold's Valentine Lake Gold Project in Central Newfoundland. The 352km<sup>2</sup> property package includes 50km of the northeastern strike-extension of the Rogerson Lake Structural Corridor, which hosts Marathon Gold's Valentine Lake deposits and Matador Mining's Cape Ray deposit. A \$2.75 million exploration program is underway, focusing on drilling and surface exploration on the Wilding Gold Project. Canterra's team has been involved in the discovery of the Snap Lake diamond mine, in addition to the discovery of the Blackwater Gold deposit in British Columbia, Canada.

Drilling the extension of the Valentine Lake Shear Zone, which currently hosts 5Moz and growing. Focused on making new gold discoveries in the newly emerging central Newfoundland gold belt. Assays pending for 5,000m of drilling with more drilling to come in early 2022.

Management:

Chris Pennimpe has 14 years of experience as a professional geologist in mineral exploration and mining. Chris has been instrumental in leading exploration teams on projects throughout the Americas. He has been involved in the early exploration and discovery of deposits in northern Canada and Alaska and has acted as VP Exploration and Director for several junior mining companies over the years. Mr. Pennimpe gained global experience evaluating and consulting to numerous projects while acting as Operations Manager for CSA Global. Chris is a graduate of Simon Fraser University with a Bachelor of Science degree in Earth Sciences.

Please reply back if you are interested in booking a 30 minute Zoom call with management to learn more.
