

## **Carrier Connect Data Solutions Inc.**

**Symbol:** TSXV: CCDS

**Sector:** Technology

**Purpose:** Raise Awareness / Open Market Buying

Carrier Connect Data Solutions' mission is to roll up Tier II/III data centers internationally that specialize in delivering co-location and data center solutions to AI companies, service providers, enterprises and small businesses. Data centers are the physical locations that store computing machines and their related hardware equipment, such as servers, data storage drives, and network equipment. As a carrier-neutral organization, Carrier's systems are fully independent and owned outright within its leased space. The current principal market for the Company is the Vancouver Metropolitan Area, where it serves clients who use its facility either as their primary datacenter or as an ancillary site depending on their needs

### **Investor Highlights:**

- Carrier Connect is rolling up Tier II/III data centers to unlock significant shareholder value by buying private companies that desire liquidity or corporate entities divesting of non-core assets for significant discounts to public market value.
- Experienced Board and Management team led by Mark Binns who have been CEOs of 6 different TSXV/CSE listed companies since 2020.
- Tightly controlled capital structure with just 13.27M shares outstanding, 32% insider ownership and less than 4 million shares free trading.

### **Mark Binns – CEO**

Mr. Binns is a seasoned public market CEO, having led 3 public companies as CEO including building BIGG Digital Assets from a 2 employee startup to a billion dollar company in 2021. Mr. Binns has raised over \$50M as a public CEO, and holds deep investment banking and broker relationships in Canada and the USA. Mr. Binns has a passion for early-stage cutting edge tech industries, and believes the data centers are at the very start of a massive growth curve.
