AINGEL

Symbol: Private

Market Cap: N/A

Sector: Technology

Purpose: Open Financing

AINGEL is building the Artificial Emotional-Intelligence (AEI) layer for AI and humanoid robotics - transforming general-purpose LLMs into emotionally aware, enterprise-ready agents. Our stack combines proprietary EQ datasets, research-driven benchmarks, fine-tuned AEI models, and an EQ Observability platform that measures and improves empathy, trust, and safety in real time. Positioned to lead the \$1 Trillion Emotional AI market, AINGEL unlocks billion-dollar opportunities in companions, B2B insights, customer support, healthcare, education, and robotics - defining the future of human-AI connection.

Investor Highlights:

- **Category Defining:** AINGEL is building the Artificial Emotional-Intelligence (AEI) layer - the missing piece that transforms general purpose LLMs into emotionally aware, enterprise ready agents.
- **Massive Market:** Positioned to lead the emerging \$1 Trillion Emotional AI market, with billion dollar opportunities across companions, customer support, healthcare, education, and robotics.
- **Defensible Advantage:** Exclusive EQ datasets, proprietary benchmarks, and fine tuned AEI models, combined with the only real time EQ Observability platform creating the industry standard for empathy, trust, and safety in AI.

Curtis Elwes

Curtis holds a Master's in Business Management with an emphasis in Finance from UBC's Sauder School of Business, complemented by studies in International Business at Harvard, and a Bachelor's in International Relations & Economics from UBC. He has built a career at the intersection of corporate development, capital markets, and high-growth ventures - from working in CRE Capital Markets to scaling and operating an eight figure eCommerce company as Chief Revenue Officer, overseeing marketing, sales, and operations. Curtis also manages a nine figure family office real estate portfolio, bringing both entrepreneurial and institutional perspective to growth and value creation.

Paul Thompson

Paul has generated over \$100M in career sales, building partnerships in frontier AI with trillion dollar enterprises and the world's largest technology companies. He secured the first enterprise clients for a company that scaled from \$30M to \$2B+ in valuation, raising more than \$200M in the process, including deals with a publicly traded EV company and a Fortune 50 pharmaceutical leader. With a business foundation from McGill, Paul has consistently closed transformative AI data deals that power the next generation of frontier LLMs.
