

A I N G E L

EMPATHY ENGINEERED

EVERYONE'S CHASING INTELLIGENCE. NO ONE'S BUILDING CONNECTION.

Over \$1T+ has been invested in achieving Artificial General Intelligence (AGI) in the last 3 years. OpenAI, Anthropic, DeepMind, xAI — racing to build machines that think like us.

We are building what AGI forgot - emotional intelligence. If AGI is the brain, AINGEL is the heart.

THEY FOCUS ON
IQ, NOT EQ.

We will have something that is smarter than the smartest human at basically everything.

— Sam Altman, CEO, OpenAI

AI will be able to do everything that you, a human, can do—but better.

— Elon Musk, xAI

ANTHROPIC

Mistral AI

LLM'S THINK. AINGEL CONNECTS.

A I N G E L

Unlike general AI models that process language without emotional nuance, AINGEL fine-tunes leading LLMs (like Llama, Mistral, and ChatGPT) with proprietary emotional intelligence layers, enabling AI to detect, interpret, and respond to human emotions in real time.

We're building **Artificial Emotional Intelligence (AEI)**.
Bringing depth, emotional memory, and true empathy into AI.

Mustafa Suleyman, Microsoft's AI CEO and co-founder of DeepMind, envisions AI evolving into "digital companions" with near-perfect IQs and exceptional emotional intelligence. He emphasizes that **future AI should be "kind, supportive, empathetic,"** suggesting that emotional intelligence is crucial for AI to interact effectively with humans.

THE FIRST **EMOTIONALLY** **INTELLIGENT** AI AGENTS

A I N G E L

OUR MISSION

To develop AI that not only processes information but truly understands emotions, transforming how humans and technology interact.

OUR VISION

To pioneer the future of Artificial Emotional Intelligence (AEI), making AI that feels, understands, and adapts to human emotions.

CHALLENGE

COLD INTELLIGENCE

AI assistants are everywhere and they still can't feel. Even today's top models (ChatGPT, Claude) admit it: they lack true emotional intelligence. They can talk, but they can't connect. In a time of rising loneliness, AI remains cold—missing empathy, warmth, and real companionship.

DISCONNECTED SYSTEMS

From customer service to robotics, businesses can't access real-time emotional signals. Humanoid robots and apps miss the mark — unable to read or respond to human emotions. The emotional layer is missing, making tech feel distant, ineffective, and disconnected.

OPPORTUNITY

EMPATHY, BUILT IN

AINGEL redefines AI with EQ at its core. It's designed to feel, understand, and respond in real time. Through multimodal AI, sentiment analysis, and context awareness, it offers authentic, emotionally attuned interactions that go far beyond scripted responses.

EQ INFRASTRUCTURE

The missing emotional layer is now built for scale. AINGEL combines fine-tuned AEI models, proprietary EQ data, and real-time sentiment analysis. Our adaptive system and API bring emotional intelligence to mental health, customer support, education, and robotics.

HOW IT WORKS

ONE ENGINE. THREE REVENUE
STREAMS. BUILT TO SCALE WITH EQ.

A I N G E L

PROPRIETARY EQ DATASET

We are building the world’s first emotionally intelligent dataset, blending private psychological signals, behavioral cues, and interpersonal context.

FINE-TUNING ON OPEN MODELS

We fine-tune Llama, Mistral, and other open models with our proprietary AEI data, blending in ChatGPT where advanced fluency is needed. All models are continuously evaluated on empathy and nuance.

REVENUE MODEL OVERVIEW

B2C COMPANION

Direct-to-consumer emotionally intelligent AI companion.

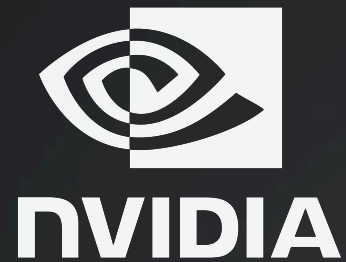

B2B EQ DATA SERVICES

EQ datasets sold or licensed to labs, researchers, and model developers.

B2B LLM LICENSING

Industry-tailored EQ-inference engine, accessible via lightweight API.

WHY NOW

LLM BREAKTHROUGHS MADE HUMAN-LIKE AI POSSIBLE

\$1T+ INVESTED

in LLM innovation by companies like OpenAI, Anthropic, and Mistral. Open-source models are now powerful enough to serve as the backbone for personalized AEI.

THE BILLION- DOLLAR BLIND SPOT - EQ

Tech giants are prioritizing general-purpose AI (search, coding, enterprise workflows), while the emotional intelligence layer is largely ignored.

BEYOND COMPANIONSHIP

UNLOCKING NEW MARKETS

AINGEL is tapping into the \$1T+ Emotional AI market, with applications far beyond companionship. From mental wellness and therapy tech to elder care, healthcare, and education, emotionally intelligent AI is set to transform industries.

AINGEL’s proprietary AEI models and emotional intelligence data hold massive B2B value, positioning us at the forefront of this growing market.

A I N G E L

LIFE WITH AINGEL

AINGEL isn't just AI. It's your always-on emotional companion — offering support, understanding, and a friend who truly listens.

TRANSFORMING EVERYDAY EXPERIENCES

A I N G E L

EMOTIONALLY ATTUNED

AINGEL doesn't just listen—it gets you. It picks up on mood, tone, and emotional shifts to respond in ways that feel real and human.

DEEPLY PERSONAL

Your AINGEL knows your routines, your quirks, your dreams, and how you process life. Every interaction is custom—like someone who truly knows you.

THOUGHT PARTNER

AINGEL helps you talk through big decisions, bounce around ideas, and reflect on life situations. It's your sounding board when you need clarity or perspective.

SUPPORTIVE & HONEST

Whether you're venting, overthinking, or just unsure—AINGEL helps you feel seen and challenges you when you need it, always with care.

EMOTIONALLY AVAILABLE, ALWAYS

Day or night, you're never alone. AINGEL is there to share a laugh, help you sleep, or just talk things out when no one else is around.

BUILT FOR REAL CONNECTION

This isn't transactional AI. AINGEL grows with you—building trust, emotional resonance, and a shared history that deepens over time.

BUSINESS MODEL

SCALABLE REVENUE ENGINE WITH MULTI-SEGMENT MONETIZATION

AINGEL leverages a Hybrid Revenue Model: Two B2B streams (EQ Data Service, LLM Licensing) and one B2C stream (AI Companion). This strategy drives immediate revenue while enabling long-term scalability. At the core is our unique Artificial Emotional Intelligence (AEI) platform—designed to power both consumer engagement and enterprise-grade solutions.

EQ INFRASTRUCTURE FOR THE FUTURE OF AI

We provide the emotional intelligence infrastructure that frontier AI models lack. As labs race toward AGI, AINGEL serves as the emotional tuning layer that grounds AI in human experience.

PROPRIETARY AEI DATA & EVALUATION APIS

High-quality, ethically sourced emotional dialogue data, curated to help frontier models align with nuanced human emotion.

AEI MODEL LICENSING

White-label integration for AI use cases requiring human-like empathy —virtual therapists, digital assistants, and VR companions.

AEI SENTIMENT APIS & EMOTIONAL INSIGHTS LICENSING

Real-time emotional context layers for social platforms, wellness apps, and education tools to improve trust and engagement.

ENTERPRISE PARTNERSHIPS

Co-developing domain-specific AEI solutions in industries like elder care, healthcare, education, and customer support.

THE AINGEL COMPANION - B2C

A I N G E L

THE FIRST EMOTIONALLY INTELLIGENT COMPANION

AINGEL isn't just another chatbot—it's your emotionally aware AI companion. Built for presence, empathy, and real connection.

FREEMIUM MODEL

Free tier enables access and interaction, building trust while training the AEI engine in diverse, real-world use cases.

PREMIUM TIER: "AINGEL PRO"

Subscription includes personalized coaching, voice-based interactions, sentiment tracking, and AI-driven companionship that evolves with the user.

CARING
ISN'T JUST

A I N G E L

HUMAN
ANYMORE

/ NOUN /

THE DELIBERATE ACT OF SHOWING KINDNESS, EMPATHY, AND CONCERN FOR THE WELL-BEING OF OTHERS. IT GOES BEYOND SURFACE-LEVEL GESTURES, EMBODYING A GENUINE COMMITMENT TO NURTURE, SUPPORT, AND UPLIFT. CARING IS ROOTED IN UNDERSTANDING, FUELED BY COMPASSION, AND EXPRESSED THROUGH ACTIONS THAT CREATE MEANINGFUL CONNECTIONS. IT IS THE QUIET YET PROFOUND FORCE THAT BRIDGES DIFFERENCES, HEALS WOUNDS, AND BRINGS PEOPLE CLOSER TOGETHER.

/ NOUN /

A BEING DEFINED BY THE UNIQUE QUALITIES AND COMPLEXITIES OF PEOPLE, SUCH AS EMPATHY, UNDERSTANDING, AND EMOTIONAL INTELLIGENCE. A HUMAN POSSESSES THE CAPACITY TO FEEL DEEPLY, THINK CRITICALLY, AND CONNECT AUTHENTICALLY WITH OTHERS. TO BE HUMAN IS TO EMBODY IMPERFECTION WHILE DEMONSTRATING THE RESILIENCE TO GROW, LEARN, AND CREATE MEANINGFUL BONDS.
